

**Information subject to disclosure under Art. 67, para. 1 of Ordinance No. 50,
according to part eight of Regulation (EU) No 575/2013 for 2020**

I. Risk management objectives and policies, according to Art. 435, paragraph 1 of the Regulation 575/2013

The goals and policies of risk management are related to reducing the influence of external and internal risk factors that affect the activities of Investment Intermediary "FACTORI" AD, including the risks arising from the macroeconomic environment when considering its risk profile.

1. Procedures for assessment and management of individual types of risk include:

- identification of individual external and internal data, facts and events affecting the activity of the investment intermediary;
- risk identification and measurement;
- specific methods for managing each type of risk and basic assumptions and starting parameters for the application of the chosen method;
- risk monitoring, assessment and control;
- risk reporting.

The measurement, analysis and monitoring of risk factors is carried out daily by employees in the "Risk Management" department at the investment intermediary.

2. The risk assessment is carried out on the basis of an analysis of the following components:

- the main and significant activities of the investment intermediary;
- the type and level (degree) of the risks inherent in the investment intermediary;
- the adequacy of the effective risk management control systems;
- overall risk assessment based on internal analysis;
- risk assessment based on external analyses, including credit rating where applicable.

The Department for "Risk Analysis and Management" at Investment Intermediary "FACTORI" AD functions independently from the unit for concluding transactions and from the other units of the investment intermediary and reports directly to the Board of Directors.

II. The management rules, according to Art. 435, paragraph 2 of Regulation 575/2013

In the 2020 financial year, there were no changes in the management body of FACTORI AD.

1. under letter "A" of Regulation 575/2013 - the organizational structure of the investment intermediary, related to risk management, is organized on five levels:

- General meeting of the investment intermediary;
- Board of Directors;
